

DRAWING THE REFLECTION

Here you have drawn several pairs of identical figures: one is the reflection of the other in a mirror placed on the red line.

Now you only have some figures and the red line.

- ◆ **Place the mirror** on the line y look carefully what you see.
- ◆ **Draw** then the reflection of the figures, without using the mirror:

- ◆ **Do you dare now** with these two letters?. You cannot use the mirror.

Once they are drawn, check with the mirror if it is right.

- ?? **How** do you have to place the mirror and **where** do you have to look at, to see a letter you know?. There can be more than one answer. Then, point out the position of the mirror and draw the reflection.

YOU WILL NEED:

A mirror, a pencil, the activity sheets and a blank sheet.
