

THE HANGMAN-2

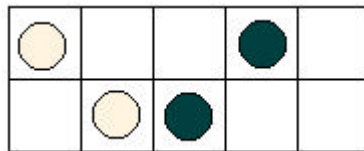

If you have solved the previous situation, you will be able to answer easily the questions we are going to set you out next in a bigger board.

Imagine that you are required to play with the counters in this position and you play with white counters. Will you win or lose the game?. In case you can win, which has to be your play?

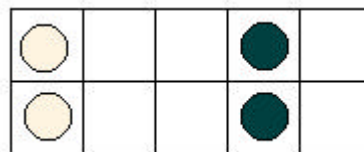

a)

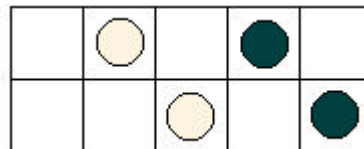

b)

c)

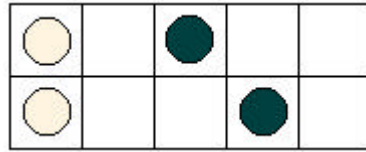

d)

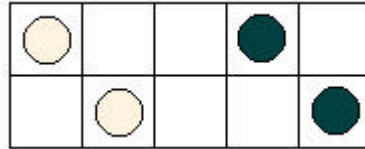

Agustín de Pedraza

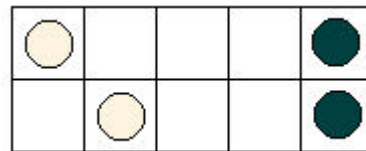

e)

f)

g)

YOU WILL NEED:
 2 counters of each color and a blank sheet where you must copy the game board.
