

THE TOWERS OF HANOI -4

The Ring of Light

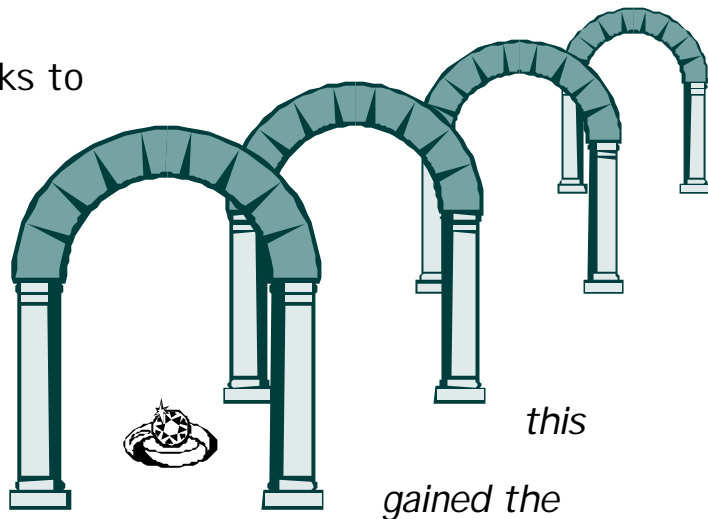

In this trial you will have to sharpen your intelligence to answer the questions correctly. Only thus you will be able, in the end, to transfer 6 disks with the least possible number of movements.

~~☞~~ If you have to transfer 2 disks from tower A to tower B, you will have to start by transferring the first disk to other tower. To which tower do you have to transfer it when you can do it, to tower B or to tower C?

~~☞~~ And if you have 3 disks to transfer?

~~☞~~ And if they are 4?
And 5? And 6?

'When overcoming trial, you will have

this gained the

right to go through the fourth door and to take possession of the Ring of Wisdom: he who takes this ring of light, will illuminate with his knowledge to whoever listen to him.'

YOU WILL NEED:

A game with 6 disks.
